

TaradomeMusik – 3-Year Technical CAPEX Roadmap (Investor Blueprint)

Assumptions: cloud-first, platformization of CRM+ledger+artist microsites, security/compliance readiness.

Year 1 (Build & Launch)

- Core platform engineering (web + API + data model + event tracking).
- CRM integrations + segmentation + campaign automation baseline.
- Media pipeline (S3 + CDN + signed URLs) + 60s preview enforcement.
- Ledger posting service + royalty statement MVP (batch).
- Observability stack + incident response runbooks.
- Security baseline: MFA, RBAC, logging, backup/PITR.

Year 2 (Monetization & Automation)

- Subscription tiers + gated content + payments hardening.
- Sponsorship portal + deliverables tracking + sponsor ROI analytics.
- Royalties automation: ingestion pipelines + statement generation improvements.
- Data warehouse for analytics (cohorts, LTV, geo heatmaps).
- Multi-environment hardening: staging/prod parity; IaC expansion.
- Compliance ramp: SOC2 readiness controls implemented and audited.

Year 3 (Scale & Platformization)

- Multi-region availability for Africa + US/EU fan bases.
- Self-serve landing page builder + artist widget platform (embedded everywhere).
- Near real-time dashboards (streams, merch, sponsor KPIs) with low-latency pipelines.
- Advanced fraud prevention + abuse controls at edge and API layers.
- Optional Web3 layer: collectibles + token-gated access (as product-market fit dictates).
- Formal SOC2 Type II completion + continuous compliance monitoring.

CAPEX Buckets (Relative Allocation Guidance)

Bucket	Year 1	Year 2	Year 3	Notes
Engineering (Core)	High	Medium	Medium	Platform, APIs, schema, integrations
Cloud Infrastructure	Medium	Medium	High	CDN, storage, DB, multi-region
Security/Compliance	Medium	High	High	SOC2 controls, audits, SIEM
Data/Analytics	Low	High	High	Warehouse, BI, ML readiness

Tooling/DevOps	Medium	Medium	Medium	CI/CD, IaC, observability
----------------	--------	--------	--------	---------------------------
