

TaradomeMusik – Kubernetes Production Blueprint

Namespace Structure:

- prod-web
- prod-api
- prod-workers
- prod-db

Deployments:

- Web Deployment (Next.js container)
- API Deployment (NestJS container)
- Worker Deployment (royalties, reporting)
- Redis Deployment
- PostgreSQL (Managed RDS recommended)

Ingress:

- NGINX Ingress Controller
- TLS via cert-manager

Scaling:

- HPA (CPU + memory)
- Separate node pools for API and workers

Observability:

- Prometheus + Grafana
- Loki for logs
